

The background features abstract, overlapping geometric shapes in various shades of blue, ranging from light sky blue to deep navy blue, set against a white background. The shapes are primarily triangles and quadrilaterals, creating a modern, dynamic feel.

# Analysis IWG FY18 Work Plan Status

Biomass R&D Board TAC Meeting

August 22, 2018

# Progress Toward FY18 Deliverables – Analysis IWG

- A workshop was held in June 2018 to explore how bioeconomy modeling questions are changing, discuss implications for existing models and new capabilities, and generate ideas for future action.
- Published a detailed analysis of potential for biofuel production from wet waste on an site-specific basis across the conterminous United States.
- Several state-of-technology assessments for advanced biofuel pathways are currently underway and will be published in the next BETO Multi-Year Program Plan (MYPP).
