TIMBERLANDS

We harvest and replant trees on a continuous cycle.

- 1 Grow Superior Seedlings**
We produce and grow top-quality seedlings thanks to decades of research and testing.
- 2 Plant Millions of Trees**
We plant more seedlings than we harvest to ensure our forests thrive.
- 3 Thin & Prune to Promote Growth**
We apply scientifically proven silviculture treatments to improve the growth and quality of our trees.
- 4 Sustainably Harvest Trees**
When our trees reach financial maturity, we harvest them in accordance with strict sustainability standards.
- 5 Safely Transport Logs**
We grade, sort and safely transport our logs.
- 6 Deliver Logs to Market**
Our experienced sales and service teams work closely with customers to provide the quality logs they need.
- 7 Supply Quality Products**
We supply our own wood products facilities, plus other domestic and international manufacturers.
